73. A

74. The sandwich was invented by the Earl of Sandwich during a card game. He was so engrossed in playing that he didn't want to leave the table to eat. He ordered meat and two slices of bread, then placed the meat between the bread slices so he could eat without using utensils and continue playing. This practical idea quickly caught on, and the meal was named after him, becoming known as a "sandwich."

75. The Earl of Sandwich's idea became popular because it was convenient and practical. It allowed people to eat without the need for plates, utensils, or stopping what they were doing. This simple yet effective concept made it easy to have a meal on the go, which resonated with many and led to the widespread popularity of sandwiches.
